**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 3, line 4, the applicant should recite that the female end is slid over “a respective” male end, so as to properly orient respective connections.

In lines 13 and 14, the applicant has now recited “a ladder”, however, lines 2-3 suggest an assembly of ladder sections. It is suggested the applicant either recite the ladders or sections of ladders.

***Allowable Subject Matter***

Claims 1 and 2 are allowed.

The following is an examiner’s statement of reasons for allowance: the primary reason for the allowance of claim 1 and the subject matter of claim 3, is the inclusion of the ends of the band secured to ladder ends, and detachable tubing clamps to receive tubing and a projection key projecting from the clamp to engage a keyhole in the band. The prior art of record fails to teach or suggest the claimed feature absent the applicant’s own disclosure.

Art Unit: 3634

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hay 32,539,664, Ray 33,106,986, and Warren #6,607,053 are cited to teach safety cage assemblies for ladders.
